## GENERAL LEARNING OBJECTIVES, METHODOLOGY AND SYLLABUS FOR THE ACADEMIC YEAR 2020-21: ACCOUNTANCY

#### Rationale:

The course in Accountancy is introduced at + 2 stage of Senior Secondary education, as formal commerce education is provided after first ten years of schooling. With the fast changing economic scenario and business environment in a state of continuous flux, elementary business education along with accountancy as the language of business and as a source of financial information has carved out a place for itself at the Senior Secondary stage. Its syllabus content should give students a firm foundation in basic accounting principles and methodology and also acquaint them with the changes taking place in the presentation and analysis of accounting information, keeping in view the development of accounting standards and use of computers. Against this background, the course puts emphasis on developing basic understanding about the nature and purpose of the accounting information and its use in the conduct of business operations.

This would help to develop among students' logical reasoning, careful analysis and considered judgments. Accounting as an information system aids in providing financial information.

In class XII, Accounting Partnership Firms and Companies are to be taught as a compulsory part. Students will also be given an opportunity to understand further about Computerized Accounting System, as an optional course to Analysis of Financial Statements.

#### **General Learning Objectives of the Subject:**

- To familiarise the students with accounting as an information system;
- To acquaint the students with basic concepts of accounting and accounting standards;
- To develop an understanding about recording of business transactions and preparation of financial statements;
- To enable the students with accounting for reconstitution of partnership firms;
- To enable the students to understand and analyse the financial statements; and

• To familiarize students with the fundamentals of computerized system of accounting.

#### Methodology:

- ✓ Topics will be discussed in class and questions from the text will be taken up and solved
- ✓ A handout to cover topics not given adequately in the text will be given wherever required.
- ✓ Assignments to cover previous year Board questions will be given for writing practice.
- $\checkmark$  Extra question covering HOTS questions for the chapter will be discussed in class.
- ✓ A monthly class test will be given to assess learning of students.

- contribution was ₹3,00,000; ₹2,00,000 and ₹1,00,000 respectively. Y has also provided loan to the firm amounting to ₹50,000. In the first two years, they earned profit sufficiently but after that their profit were declining year after year. To run the business they had to take secured loan from the bank which amounted to ₹80,000. But the profits could not be raised and return was not according to their investments. So they have decided to close down the business. At the time of winding up of business creditors of the firm were ₹40,000 and loan of Mrs. X was ₹20,000. Expenses of realisation were ₹5,000. At the time of winding up, Z says he will take the machinery of the firm. X & Y says it can be done but he has to pay the machinery amount according to market value whereas Z wants 50% discount on machinery. It was not agreed to the partners so they sold it off in the market. All the dues were paid immediately
  - a. According to Section 48 in which order liabilities will be paid?
  - b. What values are reflected in the above case?

Important theory points for preparation of a balance sheet

- **1. An asset** shall be classified as **current** when it satisfies any of the following criteria:
  - a) It is expected to be realized in, or is intended for sale or consumption in, the company's normal operating cycle;
  - b) It is held primarily for the purpose of being traded;
  - c) It is expected to be realized within twelve months after the reporting date; or
  - d) It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

All other assets shall be classified as non-current.

- **2.** A liability shall be classified as <u>current</u> when it satisfies any of the following criteria:
  - a) It is expected to be settled in company's normal operating cycle;
  - b) It is held primarily for the purpose of being traded;
  - c) It is expected to be settled within twelve months after the reporting date; or
  - d) The company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

All other liabilities shall be classified as non-current.

- **3.** An operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. When the operating cycle cannot be identified, it is assumed to have duration of <u>12 months</u>.
- **4.Money received against a share warrant**-A share warrant is a financial instrument which is issued by a public company against which the holder have the right to acquire specified no. of equity shares at a future date at a predetermined price. It is part of shareholders fund because it can only be converted into shares according to terms of issue. Money received against share warrant is shown under the head "shareholders fund".
- 5. **Share application money pending allotment**-It is the money which is received by the company against share application but shares are yet to be allotted.
- 6. Contingent liabilities and commitments
  - a) Contingent liabilities-Contingent liability is a liability which is not arisen yet but it may be a liability in future depending on the future circumstances .It is an uncertain liability. It should be noted that contingent liability is never shown in the balance sheet but always comes in notes to accounts.

#### It can be classified into:

- i. Proposed dividend
- ii. Claims against the company not acknowledged as debt
- iii. Guarantees
- iv. Other money for which company is contingently liable
  - **b)** Commitments-It is an agreement to perform a particular activity at a certain time in future under certain circumstances.
    - It can be classified into:
- i. Estimated amount of contracts remaining to be executed on capital account and not provided for
- ii. Uncalled liability on shares and other investments partly paid
- iii. Arrear of fixed cumulative preference dividend
- 7. **Preliminary expenses**-As per **AS-26**, **preliminary expenses** are to be written off in the year in which they are incurred. So, **it does not appear in the balance sheet**. It is either written off from the securities premium reserve, as is permitted under section 78 of the companies act, 1956, or is debited to the Statement of profit or loss.
- 8. **Share option outstanding account**: It is a type of employee compensation wherein employees are offered an option to apply, and get allotment of company's share at a future date at a predetermined price which is generally below the market price significantly.

| v) Profit before Tax (iii-iv) |                        | 2,000        |

Working Notes:

1. Other Income = Profit on Sale of Machinery (Rs 2,000) + Income

Tax Refund (Rs 3,000) = Rs 5,000

2. Depreciation and Amortisation = Depreciation (Rs 5,000) + Goodwill Expenses Amortised (Rs 2,000)

3. Other Expenses = Rs 7,000 = Rent (Rs 10,000) + Loss on Sale of Equipment (Rs 3,000) + Provision for Taxation (Rs 8,000) = Rs 21,000
